**Implementation of a HACCP Study  
Declaration for LEWATIT® Products**

Ladies and Gentlemen,

We hereby confirm that a HACCP study according to the Codex Alimentarius was carried out and concluded for the manufacturing of LEWATIT® Products in our production sites in Leverkusen and Bitterfeld (Germany) and Jhagadia (India). The HACCP study is subject to a documented annual review according to the valid LANXESS instructions. It is supervised and periodically internally audited by the LANXESS Quality Assurance Department which is independent from the respective LANXESS production site/s. The HACCP study serves the detection and the avoiding of possible dangers relating to products, that could come into contact with foodstuffs, and which may lead to a disease or injury of consumers.

It is an internal document, not an official certification.  
In case you may have any further questions, do not hesitate to contact us.

Sincerely  
LANXESS Deutschland GmbH
